Email address verified

The screenshot shows a web browser window for the GoDaddy UK website (<https://uk.godaddy.com>). At the top, there is a green header bar with the text "Email address verified". Below this, the main GoDaddy navigation bar includes links for "United Kingdom - English", "SAR", "24/7 Support London: 020 7084 1810", "My Account", and "Cart is empty". The GoDaddy logo is prominently displayed. The main content area features a large "Welcome back!" message. A red rectangular box highlights the text "Your email address is verified." followed by the subtext "Get started using your products now.". Below this, there is a button labeled "Go to My Account" with a person icon. Further down, there is a section for customer support with the text "Have questions? Call customer support at 020 7084 1810 or visit our [Support Center](#)". The background of the page shows a blurred image of a person working at a desk with a laptop.

Your email address is verified.

Now go to the hosting website to login

The screenshot shows the web.com homepage. At the top, there is a navigation bar with links for 'Websites', 'Online Marketing', 'Other Products', and 'Premium Services'. A 'Login' button is located in the top right corner, which is highlighted with a red box. Below the navigation bar, there is a large banner featuring a woman on a phone and the text 'YOU SAY IT. WE BUILD IT.' and 'It's as easy as web.com'. To the left of the banner is a blue starburst button with the text 'Saw Our TV AD?' and a 'Show Me' button. To the right is a quote: '“All I had to do was call. Web.com did the rest.”'. At the bottom of the page, there are two main calls-to-action: 'Build your own website in 3 EASY steps' with a 'Get Started' button, and 'Find new customers in your area NOW' with a 'Learn More' button.

... we need to change it to our custom nameserver  
As per our hosting website

The screenshot shows a GoDaddy.com domain management interface. The main menu includes 'Domains', 'Buy & Sell', 'Settings', and 'Help'. A sub-menu for 'Domains' is open, showing options like 'Organize', 'Nameservers', 'Forward', 'Lock', and 'Copy'. A specific domain, 'NOORULQAYYUM.COM', is selected. A modal window titled 'Nameserver Settings' is displayed, showing the current setup type as 'Custom' (radio button selected). Below this, a message states 'Customizable nameserver settings.' A table titled 'Nameservers' is present but currently empty. At the bottom of the modal, there is a note: 'You're currently using default nameservers: [Enter custom nameservers »](#)'. Buttons for 'Save' and 'Cancel' are at the bottom right. The background shows a blurred view of the GoDaddy dashboard.

Now enter all of your nameserver addresses

### Your FTP Account Information

Please see the TIP section below to determine whether FTP is right for you.

**FTP Server/Host Address**  
0002zap.wcomhost.com

Edit your login settings or select an account to log in below:

FTP User Accounts	FTP Login ID	FTP Password	Port	Protocol
ftp	[REDACTED]	Change	/	/

**Reset File Permissions**  
Are you having trouble uploading your files or running CGI scripts?  
Resetting your file permissions might help.  
For more information: [Reset File Permissions](#)

**FTP User Accounts**

**TIP**

NOTE: If you are using the Website Builder, FTP File Publisher or File Manager you will not need to use FTP. In Website Builder, you may upload files to your site by hitting the "Publish" button. In File Manager, you can do so by hitting the "Upload" button and in FTP File Publisher, you may drag and drop files from the left hand box(your computer) to right hand box(your website).

**What is FTP for?**  
FTP stands for File Transfer Protocol. FTP software allows you to copy files from your local computer to your web site or vice-versa.

**When would you want to use FTP software?**  
You may want to use FTP Software when you've designed a site yourself on your computer and want to publish it to the web. You may also want to use FTP Software to upload a video to your web site, a document that you would like people to read or even to back up your entire website onto your computer.

**FTP Software:**

**Edit FTP Account**

FTP Server/Host Address: 0002zap.wcomhost.com

FTP User ID: ftp [redacted]

FTP Password: [redacted]

Please enter this field ONLY if you wish to change your password.

Confirm Password: [redacted]

Description: [redacted]

Directory: / [redacted]

The "/htdocs" directory is the directory where your web site content is stored. If you leave this as a default, this account will log directly into the "/htdocs" directory. You may also specify another directory. This might be useful if you would like to allow someone else to access files that you make available specifically to them.

If you would like to restrict access to a specific directory, enter the directory name above. By entering a directory, this account will log directly into the specific directory and will not have access to any parent directory.

**Cancel**      **OK »** (The "OK »" button is highlighted with a red box.)
